PROFESSIONAL SUMMARY

MBA candidate with a B.S. in Computer Information Systems and direct experience supporting enterprise customers at AWS in high-impact cloud environments. Brings technical fluency and business acumen to identifying user needs, prioritizing solutions, and driving cross-functional alignment. Skilled in stakeholder communication, AI-assisted workflow improvement, and translating complex operational challenges into actionable outcomes.

EDUCATION

California State University, Chico

Master of Business Administration (AACSB Accredited).

Expected December 2026

California State University, Chico

Bachelor of Science, Computer Information Systems. Minor: Business Administration.

2023

EXPERIENCE

Graduate Student Assistant

Aug 2025 – Present

College of Business, California State University, Chico

- Apply AI-assisted vibe coding and prompt-driven development to build lightweight tools that streamline Learning Management System (LMS) administrative workflows.
- Document AI-assisted programs and workflows to support usability and continuity for non-technical users.
- Assist with course administration including grading and supporting academic and operational tasks.

Cloud Support

Aug 2023 – Aug 2025

Amazon Web Services (AWS)

- Supported enterprise customers across AWS services, diagnosing needs and resolving issues to maintain service reliability.
- Coordinated with engineering teams to troubleshoot incidents and implement solutions, minimizing downtime and disruption.
- Translated technical issues and resolutions for both technical and non-technical stakeholders to enable alignment.
- Advised customers on cloud configuration and best practices to improve system performance and maintainability.

Cloud Support Intern

Jun 2022 – Aug 2022

Amazon Web Services (AWS)

- Gained hands-on exposure to core AWS services through structured training and real-world support scenarios.
- Resolved troubleshooting service requests and documented solutions to improve team response efficiency.

SKILLS

Technical and Product: AI and Prompt Engineering, AWS Cloud Technologies, Agile Fundamentals, IT Support

Business and Professional: Customer-Centric Problem Solving, Cross-Functional Collaboration, Business Analysis, Stakeholder Communication, Product Documentation

ACTIVITIES & LEADERSHIP

Graduate Business Association / Council of Graduate Students, CSU Chico

Aug 2025 - Present

Student Organization Leadership

- Support Graduate Business Association budgeting and expense tracking; assist the Council of Graduate Students with outreach, communications, and event coordination.

City of San Ramon

Aug 2023 - Apr 2024

Community Advocate

- Partnered with the Vice Mayor and Community Services Director on young-adult engagement initiatives; presented recommendations that contributed to the city's first online resource hub and formal recognition of the 18-25 demographic in planning.

College of Engineering, CSU Chico

Aug 2021 - May 2022

Student Senator

- Represented 2,500+ students and collaborated with deans and university committees on data-driven proposals affecting resource allocation and campus technology initiatives.

CERTIFICATIONS

- Google AI Professional Certificate (2026)
- IT Support Professional Certificate of Achievement, Las Positas College (2025)
- AWS Certified Cloud Practitioner (2022)
